MWAB UPDATE APRIL 2026

UGANDA

The Uganda trainings kicked off early this year, with Iganga in January and Bugiri in April with full capacity classes. One exciting outcome is the consistency in training new facilitators - we have a Uganda MWAB team!

OTHER OPPORTUNITIES

Holiday clubs have been on the agenda of many of our teams these holidays. Many children have been touched by Jesus.

"We want to be a base for MWAB children's worker trainings for our region." This from a pastor we trained with his people in Kitui region of Kenya in April. They have people ready to be trained as facilitators.

Please pray for this opportunity. We need wisdom and guidance for MWAB's future.

TESTIMONY FROM A PASTOR

Robert (Foundations 1 Training *Bungoma*)

I am deeply grateful for the Foundation One training organized by MWAB. I came into this program as a pastor, but I must honestly say I had never attended such a unique training on children's ministry before. It has truly changed my life and transformed the way I view ministry to children. I feel humbled by the experience.

On the first day, many of us arrived dressed formally in suits, and some even in high-heeled shoes, carrying big books and pens, expecting a very theoretical and lecture-based program on children's ministry. However, we were pleasantly surprised. This training turned out to be very different and unique.

We have not only learned but also had fun, built strong relationships with one another, and most importantly, engaged with the children in the community through outreach. It was powerful to learn by doing, not just listening.

I was especially touched by the devotions throughout the training, particularly Day 3 on "Open Hands." This session helped me realize how much that what children receive first in their lives truly matters. I have been challenged to intentionally build a strong and godly foundation for children - one that they will grow up holding onto and later pass on to the next generation, as instructed in Psalm 78.

I sincerely thank MWAB for this impactful training. I am already looking forward to the next Foundation training.

THANK YOU FOR YOUR SUPPORT WHICH PROVIDES FARES AND SUPPLIES TO MAKE THE COURSES HAPPEN.
